1.0 INTRODUCTION

Doncaster Racecourse looks forward to welcoming you.

We recognise the need to ensure the experiences we offer at Doncaster Racecourse can be enjoyed by as many people as possible. We've consulted expert partners and specialist user groups (including Level Playing Field), and Doncaster Council) to make sure that Doncaster Racecourse is a welcoming and inclusive venue to all our guests with access requirements.

At Doncaster Racecourse, we have a wide range of different buildings and amenities available and we are continually working towards improving and raising our standards in our visitor facilities and customer care. To be able to raise our standards we will always review our facilities and we pride ourselves in performing the best we can across all areas of the business.

We carry out access audits on a regular basis to help identify areas where improvements are required and look at solutions to any issues raised. We not only want to comply with relevant legislation, but also to go further in providing a top-quality experience for all visitors. We will take steps to ensure that guests with accessibility needs are treated equally, and that 'reasonable adjustments' are made where necessary and possible, through sensitive and creative solutions to provide access for all.

We will always ensure ALL visitors will be looked after. If access to a certain building is not possible for whatever reason, we will always try our best to assist in overcoming these restrictions where possible.

Here at Doncaster Racecourse we pride ourselves on giving our team the best possible training we can, which ensures you will never be far from a member of staff who can answer your questions.

Please find below a site map to help you find your way around.

Should you have any questions or need assistance, please talk to one of our stewards. Alternatively, come to the racecourse reception or Guest Services Desk in the main entrance, where one of our team will be able to assist.
